

Residential Treatment Directory

A free online treatment locator by Mental Health Initiative

MHI has created a 100% free online Residential Treatment Center Directory, anticipated to go live by end of 2024. Our goal is to have all treatment centers across the country participate and be listed so that clients, families, and providers can more easily locate treatment in times of need. The directory will include aspects of programs that are important to prospective clients, and that are sometimes harder to access on-demand.

We appreciate you joining us in our mission to make treatment more accessible!

Eligibility Criteria to be Listed

1. Offer a Residential Mental Health Treatment Program (28+ Days).
2. Treat Primary Mental Health Disorders and/or Treat Co-Occurring Mental Health Disorders.
3. Provide treatment to Adults (18+)
4. Commit to completing a Program Overview Update Form every 6 months to ensure accuracy of information
5. Utilize Evidence-Based Interventions for Treatment.
6. Located within the United States

Format

The directory will include broad filters and advanced filter options.

Upon selecting a Treatment Center, a “Face Sheet” will appear with all information gathered, including contact information for the admissions team.

Two Ways to Search

Option 1: Search By Diagnosis Treated

This option can be utilized by providers, individuals needing treatment, or family members who are aware of the client’s (or their own) specific diagnosis.

Option 2: Search By Problems Experienced

This option can be utilized by individuals or family members who may not be familiar with, or who do not identify with a specific diagnosis.

Get Listed on the Directory

Complete the initial inclusion survey [here](#):

*You will only complete this initial survey once. 6 month updates will only include what has changed
